

I have very much, enjoyed NOT having all the unwanted calls from companies & organizations wanting to "sell" their service or a "quick" survey for future ad programs. I do not enjoy being rude or hanging up on people who do not take "No Thank You" for an answer and I do not enjoy having to avoid answering the phone in my own house. The NO CALL List has WORKED very well for our families and the "ALL HOURS" ringing phone is gone. Now I know that when the phone rings (home & cell), the person on the other end is someone I really want to talk to. Please do not reverse the decision to let our phone numbers be released to businesses again.
